“This whole experience (2019 International Formation Program) has been totally transformational. I have been involved in Catholic education for 40 years and this has made a fundamental change in my life and has reinforced the wonderful joy of being a Catholic educator... I feel fully connected to the universal Church and the good news that the Holy Spirit is working and moving amongst us all.”

Stuart McPherson

Principal, Worth School, *England*.

“Bringing people together from different parts of the world...this has meant something quite special. From a Catholic leader’s point of view it has been really exciting to see an organised vision for how we might be able to deliver more effectively formation for the pupils and staff we work with. I feel encouraged and excited about the whole experience.”
